Professional Summary

B.Tech Information Technology student with hands-on experience in full-stack development, AI-powered automation, and cloud deployment. Built scalable web applications and LLM-integrated workflows using React, Node.js, AWS, and REST APIs. Actively strengthening problem-solving skills in data structures and algorithms while focusing on clean architecture and performance-oriented development.

Education

B.Tech. Computer Science & Engineering (IT) **2023 – 2027**

Shri Vishnu Engineering College for Women, Bhimavaram.

Skills

Programming Languages: Python, C, C++, JavaScript
Front-End: HTML, CSS, React.js, Responsive Design
Back-End: Node.js, Express.js, REST APIs
Database: SQL, MySQL, MongoDB
AI/ML: Prompt Engineering, Generative AI, AI Tools for Content & Development
Tools: Git, GitHub, Postman, n8n
Skills: Problem-Solving, Communication, Teamwork, Leadership

Work history

AI Developer Intern
Freedom With AI — Remote **Oct 2025 – Dec 2025**

1. Built **LLM-powered workflow automation tools** reducing manual task time by 30%.
2. Designed structured prompt frameworks to improve **output consistency across AI pipelines**.
3. Integrated AI modules into **UI workflows for automated content and code generation**.
4. Conducted iterative testing and prompt refinement to improve reliability and output precision.

Skills: LLMs · AI Agents · Prompt Engineering · Generative AI · Digital Marketing AI · Automation Tools · UI Collaboration · AI Testing · Content Optimization

---

Google Student Ambassador
Google Developers Community **Aug 2025 – Present**

1. Represented the **Google Developers ecosystem** on campus, promoting **Google Gemini AI** and developer programs.
2. Led **technical workshops and peer-learning events** on Gemini AI, reaching **500+ students**, in collaboration with **GDEs and GDG chapters**.
3. Served as a liaison between students and Google, **collecting feedback** to improve learning outcomes and community impact.

Skills: Public Speaking · Technical Evangelism · Google Gemini AI · Community Building · Event Management · Leadership · AI Awareness · Developer Relations

---

AI Prompt Engineer Intern
Data Rakshak Technologies Pvt. Ltd. — Hyderabad, India **May 2025 – July 2025**

1. Used **AI-assisted development** to design frontend UI logic, backend workflows, and database schemas.
2. Generated and refined solutions across **JavaScript, REST APIs, and SQL queries**.
3. Accelerated feature development using **AI-driven prototyping**, improving development efficiency.
4. Collaborated with developers to validate logic, edge cases, and API behavior.

Skills: Prompt Engineering · AI Agents · Full-Stack Concepts · JavaScript · API Design · Database Patterns · Rapid Prototyping · Problem Solving · Team Collaboration

---

AWS Cloud Computing – DevOps Intern
Andhra Pradesh State Skill Development Corporation (APSSDC)
Summer Online Internship Program 2025 **May 2025 – July 2025**

1. Worked with **EC2, S3, IAM, and RDS** to understand cloud-based application deployment.
2. Built basic **ETL pipelines** using AWS Glue and Athena.
3. Practised Linux commands and cloud resource management.

Skills: AWS · EC2 · S3 · RDS · IAM · Cloud Computing · DevOps Basics · ETL Pipelines · AWS Glue · Athena · Linux

---

Web Development Intern
FortiX Cyber Defence — Remote **Jan 2026 – Present**

- Developed responsive frontend interfaces using React.js and Tailwind CSS for an enterprise cybersecurity SaaS platform.
- Built and integrated REST APIs using Node.js and Express for authentication, client access management, and application workflows.
- Implemented secure login system with role-based authentication (JWT-based access control).
- Optimized API response time by improving database query handling and middleware structure.
- Collaborated on scalable architecture design for handling client requests, HR applications, and automated email workflows.
- Contributed to deployment-ready builds using Git, GitHub, and cloud fundamentals.

Skills: React.js · Node.js · Express.js · REST APIs · JWT Authentication · MongoDB/MySQL · Tailwind CSS · Git · SaaS Architecture

Projects

SR-TODO **(Next.js, TypeScript, React)**

- Built a full-stack productivity app with drag-and-drop task management and calendar integration.
- Implemented speech-to-text using Web Speech API for voice-based task input.
- Designed a scalable state management system, improving UI responsiveness.

Key Takeaways: AI-prompt engineering, Speech recognition, High Performance Web Development, Efficient State Management.

ThriUCare

- Developed a secure authentication and user session management system.
- Built dynamic dashboards for personalised symptom tracking.
- Designed REST-based backend architecture for scalable data handling.

Key Takeaways: Full-Stack Web Development, Responsive UI/UX Design, E-commerce Integration, Symptom Tracking & Dashboards, Secure Auth & User Management, API & Database Architecture

Interests

Travelling, Team Sports – Cricket, Gardening.

Languages

English, Telugu, Hindi (Basic), Tamil (Basic), German (Basic).
